Third Energy Innovation Forum. Electricity System Flexibility: challenges and solutions

Thursday 11 February, 10.00 -13.30 CET / 9.00-12.30 GMT

The President of the Smart Future Innovation Cluster Zsolt Bertalan and the British Ambassador to Hungary Paul Fox invite you to **an exclusive workshop on innovation in the energy sector in the UK, with a special focus on electricity system flexibility.**

The event will provide a unique opportunity to hear from the UK's **Office of Gas and Electricity Markets (Ofgem)** and the **Hungarian Energy and Public Utility Regulatory Authority (MEKH)** about the technical and regulatory challenges and solutions facing the electricity grid. It will also be an opportunity to learn from some of the **leading UK innovators** in the field on the new technological solutions in grid flexibility and energy storage.

The event will take place on Microsoft Teams on **Thursday 11 February, starting at 10.00 CET / 9.00 GMT.**

The working language of the event will be English.

Please indicate your attendance by registering at:

<https://forms.gle/bVDdnN2usYZRgDkQ6>

By 9 February.

Registered attendees will receive the access link one day before the event.

Please find the programme on the next page.

The event is part of the British Embassy's intensive focus on climate, clean energy and net zero emissions, in preparation for the UK's presidency of the UN Climate Change Conference (COP26) in Glasgow in November 2021.
